Interview Medical Inventor, Author and Entrepreneur On:

“If you have an idea, run with it and get started!”

In 2004, Ron was awarded *"Home Care Person of the Year"* followed by Top Tech Executive in 2011 in San Diego and with 17 patents in the medical field under his belt all while launching over 40 new products, managing sales in Asia, Europe, and South America and formulating new product FDA submissions, coordinate registration processes for security protocols of HIPAA/PCI/ISO/HITRUST, medical device, medical diagnostic, and life science market segments for 25 years.

BLD Consulting formed in 2011 was only a natural progression in Ron's career which became a centre stone of all his collective expertise in the Medical Industry focusing on sales, marketing, digital, web design, M/A, FDA and overall supporting medical device manufacturers, hospitals, homecare, physician-based businesses, as well as clinical trials.

During his involvement as an inventor, investor and entrepreneur, Ron worked with investors and helped them turn their ideas, as they mulled over a cup of coffee, into a product that benefits people worldwide.

Ron's book, **"Someday is TODAY!"** walks you through the invention process, taking drawings scribbled on a napkin to a patented product sold on shelves.

Key areas of expertise and certification:

- Certified Respiratory Therapy Technician / CRTT
- Clinical Research Coordinator
- Registered Emergency Medical Technician (EMT)

Key awards and recognition:

- 1989 Nellcor Puritan Bennett Presidents Club
- 2004 Home Care Person of the Year
- 2005 ResMed Presidents Club
- 2011 Top Tech Executive of the Year

Someday is TODAY!

A book that shows you how to go from an initial idea while sipping coffee to a fully developed product on shelves.
